

Professional Summary

Enthusiastic and results-driven **Artificial Intelligence and Machine Learning (AIML)** student with strong foundations in **machine learning, data analysis, and cybersecurity**. Hands-on experience in **Python, Java, web development, and computer vision** through academic projects and internships. Skilled at applying theory to real-world problems, with exposure to **cloud computing (AWS), IAM, and data-driven decision making**. Eager to contribute innovative solutions in **AI, ML, or cybersecurity**.

Education

SIES Graduate School of Technology <i>Bachelor of Engineering in Artificial Intelligence and Machine Learning</i>	Navi Mumbai <i>Expected 2026</i>
R.K. Telreja College of Arts, Commerce, and Science <i>Higher Secondary Certificate (HSC)</i>	Ulhasnagar, Thane <i>2022</i>
SICES High School and Junior College <i>Secondary School Certificate (SSC)</i>	Ambernath, Thane <i>2020</i>

Internships

Ion Chemical Industries <i>Intern – Worker Safety Monitoring (PPE Detection)</i> - Developed a computer vision-based PPE compliance monitoring system using Python and OpenCV. - Collaborated with safety and operations teams to integrate system into workflows, improving compliance. - Analyzed real-time data streams to identify trends and generate actionable insights. - Prepared documentation and presented project updates to senior management.	Navi Mumbai, Maharashtra <i>Dec 2023 – Apr 2024</i>
7 Sages <i>Intern – Full Stack Developer</i> - Contributed to the development of a gym management application with features including member registration, workout tracking, and subscription handling. - Implemented the front-end using React.js and Tailwind CSS, ensuring a responsive and user-friendly interface. - Developed back-end APIs with Node.js and Express, and integrated a secure MongoDB database for scalable data storage. - Worked in a collaborative Agile environment, delivering modules on time and participating in code reviews and testing.	Remote <i>Mar 2024 – Aug 2024</i>

Projects

- PPE Detection System:** Designed and implemented using **Python, OpenCV, and Deep Learning** for real-time workplace safety monitoring.
- Machine Learning Models:** Built supervised and unsupervised ML algorithms (**Decision Trees, KNN, Clustering**) using **Scikit-learn & Pandas**.
- Web Development Projects:** Developed responsive websites using **HTML, CSS, JavaScript**.

Certifications

- Python Programming:** Learn Python from Scratch – **Udemy**
- HTML Certification Course:** **Udemy** (Hindi)
- Mastercard Cybersecurity Virtual Experience Program:** **Forge**
- AWS APAC Solutions Architecture Virtual Experience Program:** **Forge**
- Tata Cybersecurity Analyst Job Simulation:** **Forge**

Skills

Programming Languages: Python, Java, C

Machine Learning & Data: Scikit-learn, Pandas, NumPy, OpenCV, Data Visualization (Matplotlib, Seaborn)

Cybersecurity: IAM Design, Threat Detection, Security Awareness, Cloud Security Basics

Web Development: HTML, CSS, JavaScript, Responsive Design

Cloud & Tools: AWS (Elastic Beanstalk, EC2, S3), Git, Linux, Jupyter Notebook

Soft Skills: Problem Solving, Critical Thinking, Team Collaboration, Presentation, Design Thinking

Extracurricular Activities

- **Mastercard Cybersecurity Simulation:** Identified **phishing threats** and developed training modules.
- **Tata Cybersecurity Simulation:** Prepared **IAM documentation** and delivered presentations on best practices.
- **AWS Solutions Architecture Simulation:** Designed scalable hosting architecture with **cost analysis**.
